# Objectives

WP5 is the “**Spreading Excellence**” work package of the VPH NoE.

Its main role is to ensure efficient **dissemination** of project achievements and results, both within and outside the NoE, and to install the mechanisms that enable the **integration** of all projects currently running under the VPH umbrella.

# Dissemination / Integration

# The VPH Initiative

## T5.4 - VPH Working Groups

The VPH Initiative (VPH-I) is a working group that seeks to improve **communications** between European projects running under the VPH umbrella, exploit **common dissemination** opportunities, and **avoid** scientific **duplication**

- The **VPH-I working group** has been formally initiated at the EC concertation day in October 2008 (15 FP7 VPH projects)
- VPH-I partner projects have been **contributing to the NoE activities** (concertation events, NoE newsletter...)
- Some projects have **natural links** with the NoE because of partners involved in both. We would like all VPH projects at the same level of cooperation.

# VPH NoE web site

- Creation, maintenance and update of the VPH **public web site**
- Creation of a **private section** of the web site to serve as repository and collaborative tool
- Specific **dissemination sections** created on the web site :
  - forum, news, roadmap, events, dissemination material (logo, flyer, factsheet, newsletters)
- Complete **VPH-I section**
- One section created for each **work package**
- Appraised by the reviewers yesterday !
